*In order to work from home on this iPad, it must be attached to your home network and have been authenticated.*

Please follow the steps below in order to authenticate.

1. On the home screen, click on the Settings button
2. On the Left side of the screen, click on Wi-Fi
3. On the right side of the next screen pick your home network
4. Log into your home network
5. Return to the home screen
6. Find and click the Authentication bookmark

7. On the next screen, click “local users”
8. Change local users to “435 Directory”

9. Then enter student’s Canvas username and password.
10. A screen will pop up to tell you that you are successful.
11. Remember that student’s username and password are on their name tags.
